

January 2, 2018

**Subject: 2018 Service Training**

I am pleased to announce the dates for our 2018 Certification and Advanced Service Training Classes. Regional training events may be added and announced throughout the year, based on distributor requests. Attendees will be responsible for their own expenses (travel, hotel, etc), but the training is provided free of charge. These classes have a limited number of slots, though we will add additional dates if the classes fill. Please see below for the class, date, location, and accommodation information.

**Service Certification Training**

**Class Length:** 3 full days, typically 8:30AM - 4:30PM

**This is the Certification Course required to perform commissioning, warranty, or extended warranty work on a BOGE rotary screw air compressor.** This class is open to any Authorized BOGE distributor, with no prerequisites.

**Topics:**

- Rotary screw & piston compressor basics
- BOGE oil-flooded rotary screw design and function
- BOGE oil lubricated piston compressor design & function
- Compressor Controllers (RATIO, FOCUS, Focus 2.0 etc)
- Variable Frequency Drive Basics
- Commissioning
- Maintenance
- Troubleshooting
- Warranty policies
- Spare parts manuals
- Certification Test
- Other topics as requested

**Advanced Controls & Electrical Training**

**Class Length:** 3 full days, typically 8:30AM – 4:30PM

This class is for technicians who wish to learn about master controllers, more advanced functions of the individual compressor controllers and effective electrical troubleshooting. This class is only open to BOGE distributor technicians with a current Basic Service Certification.

**Topics:**

- Controller software updates
- Focus 2.0 advanced features
- FOCUS and RATIO networking
- Electrical Troubleshooting
- Variable Frequency Drive function and programming
- airtelligence Plus and Provis 2.0 specification, installation, and configuration
- airstatus remote monitoring tool installation and configuration
- Other topics as requested
